

30th Path The Sun

This path helps illuminate the dark corners of your subconscious mind, sounds a bit scary, but do not fear! This is about letting the Sun in, imagine it as the sunshine on seeds, they feel the warmth then reach for the Sun, breaking out and creating something beautiful after being hidden for so long. Think artistic pursuits, great roles yet unfulfilled, the science of astrology and alchemy are also represented. Here is your healing power, for self and others, stronger and more potent visualisations, and vitality to move things forward.

Intuition, Yesod, is charged with reason and conscious awareness, Hod, the result is clarity of purpose for the path ahead.

The challenge of this path is to remain in a place of courage without pushing into ego, and as a result the most sought-after question is one step closer to being answered; 'what is my life's purpose?' Look for opportunities that revisit skills, ideas or dreams that simply needed more light to flourish.

Yesod to Hod 'The Collecting Intelligence', astrologers deduce from it the judgement of the stars and celestial signs, and the perfections of their science, according to the rules of the motions of the stars.

This is a path of great teaching, great teachers, you recognise those who have gone before, added and adjusted human knowledge of both esoteric and geocentric worth; the sciences, literature, astrology and spiritual studies.

Solar god forms are found here, Apollo, god of prophecy, Ra the Egyptian sun god and many more.

Guidance

How do you balance your knowledge with your intuition? Do you favour one over the other or are you able to listen to both? Take some time to consider the dance between the Sun and the Moon, the Sun is knowledge and the Moon intuition. As you gaze skywards it appears as if one takes over from the other, the Sun ruling daytime and the Moon the night. The truth is they are both in the sky at the same time, both working their magic in unison. It's time to shed some light on your own thought process, time to consider your powerful mind or maybe to ask what is really going on in your head? Are you more inclined to over think, perhaps you don't listen to your rational mind enough? Intentionally or not, there are those who play with your mind, with your thought process and so you're asked if you're acting on the suggestions or wishes of others rather than knowing your own mind?

Foresight

How do premonitions, guidance or knowing work for you? Are you a dream it, see it and remember it kind of person or does your intuition need the guidance of astrology, oracle cards? If you have a system in place already, use it to make the most of your inbuilt awareness.

Revealed

The 30th Path links the Sephiroth Yesod with Hod and is The Sun in Tarot, a link that can strike your first contact with higher guides as well as strengthening your inner dialogue with your own star born wisdom. The word Resh means head, perhaps see your mind as a transmitter and a receiver for divine communication?

Activation

Astrology finds its place here. Seek the first language of the stars in your life and perhaps start with the Sun and the Moon; where are they in your natal chart and what does that tell you about your own mind and intuition?
