

Tree of Life Month 9

Rotations, Cycles and Chaos
The Spirit's View

You Are Here

- Home to **Uranus**, he's the planet of disruption, the bringer of chaos and in many ways a tough one to deal with. But the reward are huge creativity, massive downloads of energy and wisdom and the raw power of your spiritual nature waiting for you to direct it.

Energy

- Sitting opposite the realms of form is the divine force, Xariel, the divine masculine. In unison with Kikanta and Ioniel forming this triangle, this trilogy, is in effect the creator force for you. Create!
- So high that it becomes even more difficult to put into words and even in the beautiful realms of unbounded meditation harder to understand. So don't try, if ever you need to feel, sense, let the energy move around and through you and just be with it's in its own worlds, feel the sparkle!
- You see it in your aura, you see it in the trees and feel it through the earth, you are it and it is you. You receive and transmit to it, join with it and feel it buzzing through every fiber of your being when you're still enough to listen. It's what you wish would come out of your fingers when you play witches and wizards, and the truth is it kind of does

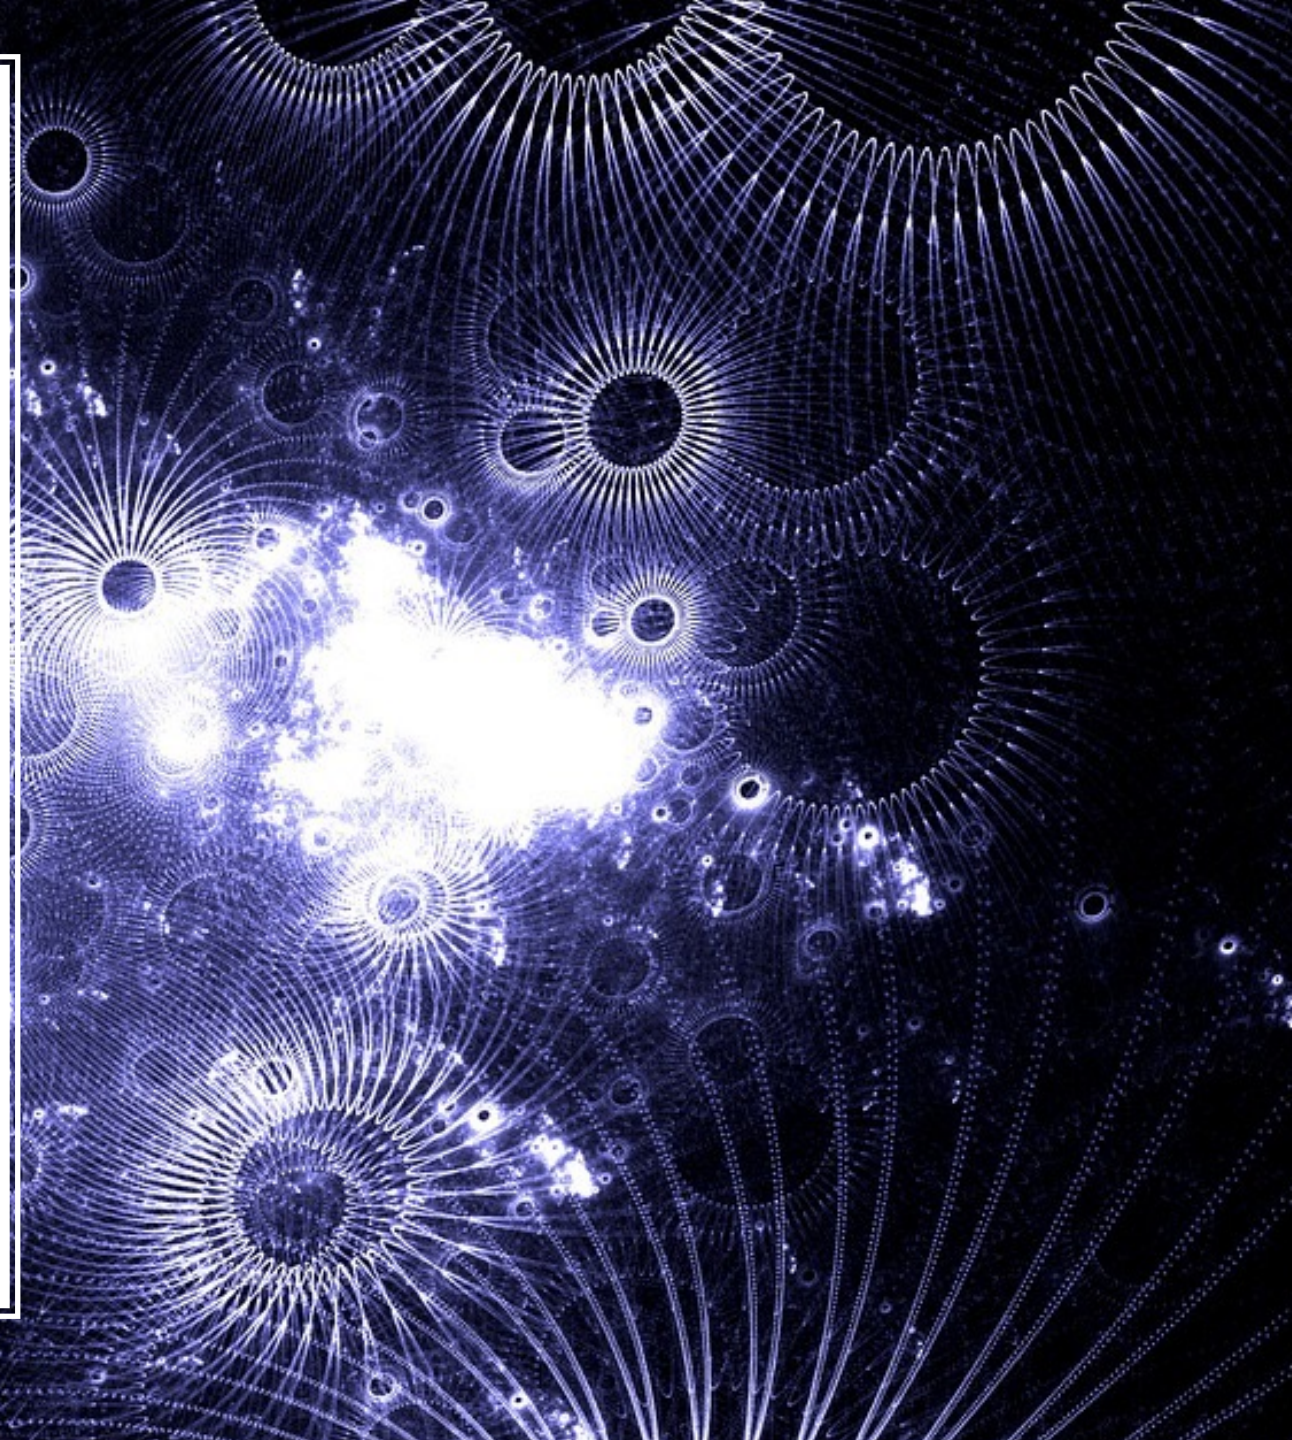

Zap!

- The cattle prod, it zaps things into action, into being, asks us to make that choice, what plans need an extra push, creative ideas applied with logic that could give birth to a new way of doing things or take your plans in a more beneficial direction? It throws the switch to on.
- A keyword is wisdom, a word to the wise, it's not the same as knowledge. But wisdom that hasn't been expressed is only understanding and knowledge, both fine things but until they are practiced, made manifest in some way they are but that, nice to know, great that you understand but let's hear your wisdom.
- it's clear just how important this is, none of us should hold our knowledge and understanding to our own souls when the wisdom of sharing it could make a difference no matter how small or how grand.
- Few of us are wise all of the time: if only. It's also something that takes lifetimes to learn, the soul grows into it and the wise use of this power, your own creativity, shines from some and is may be lacking in others.

Rotation, Cycles, Chaos

- The Virtue is Devotion, so what does that have to do with rotation, cycles or chaos? It's the will to keep going, to know it will be exactly what you need even if sometimes it doesn't come the way you want
- Rotation and Cycles are on a higher level, take away the repeat situations you find yourself in, the "ah, this again" energy of life on earth and consider the rotation and cycles of your soul, your spiritual self.
- Where does your need to change things come from? How many times have you incarnated and done nothing? How many times have you incarnated and made huge steps forward? What about all those times you're not in a human body, on earth, or in any other realm in the universe? All are part of the rotation, the cycles of your being.
- These thoughts lead you to lightbulb moments of illumination that cause chaos and that is the rotation, the cycle that comes from this divine source.

Uranus

- The easiest way to remember this symbol is to think about it as a television aerial, old fashioned now I know, but it helps you to remember that it's about electricity, communication and the intake of energy that's then turned into something you can see, hear or feel; an energy you can make use of.
- It's also an energy that must be treated with a great deal of respect, just like electricity and should only be handled by well trained operatives; like yourself!
- He changes signs every seven years, so he affects generations, you will share his traits with lots of people born within those seven years of his journey through the sign you hold him in.
- He indicates where you're likely to find most disruption in your life, by house position, and by the sign he occupies he's telling you how he's going to work through you. How does he sit for you?
- Once you know how he operates it's easier to plug in, to help illuminate your path.
- The zodiac wheel itself is a symbol Uranian energy, an ever-changing theatre of inspiration, planetary movement and possibilities waiting to be uncovered and hopefully you've realised that by now.

Wise Words To Consider, Act or Meditate On

1 Wisdom isn't about age, it's about experience so plan a trip, travel, listen to the wise folks around you and listen with more than your ears.

2 A wise person knows and sees the deeper understanding of life's experiences, don't get caught up in the small stuff.

3 So now that you're not sweating the small stuff you can see what lessons the small stuff taught you, life has educated you.

4 Now remember what the big stuff taught you and cut out any nonsense.

5 Meditate. Find what works for you and be regular with your practice, find your balancing point.

6 Growing up doesn't mean growing old, climb a tree now and again.

7 Challenge the status quo, use this experience to re-invent anything you see needs that wisdom applied to it, write it down.

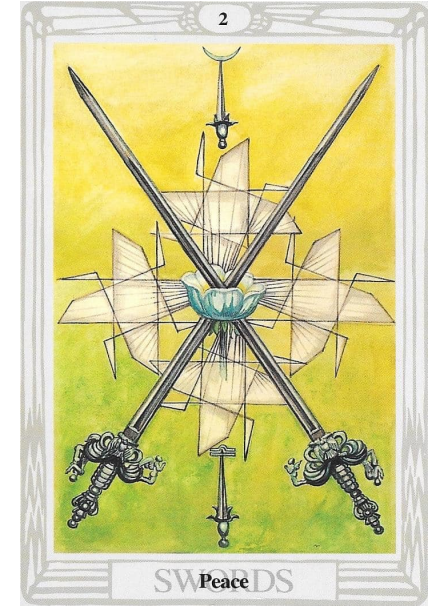

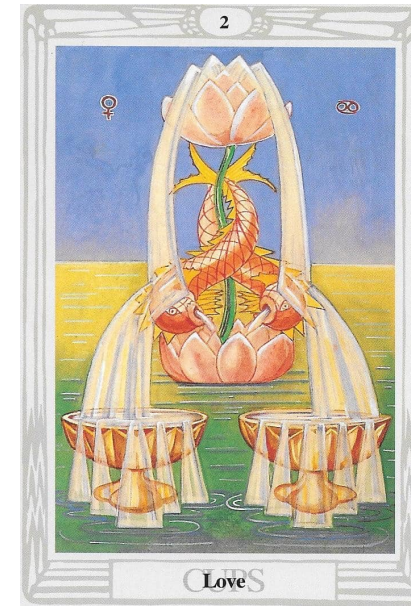

8. Don't compare; ever. You're a unique spark from the Universe, shine like you know it, make it a foundation of your life.

9 Look down and see what you have learned on this journey and remember the road to true wisdom is to 'Know Thyself' here on earth.

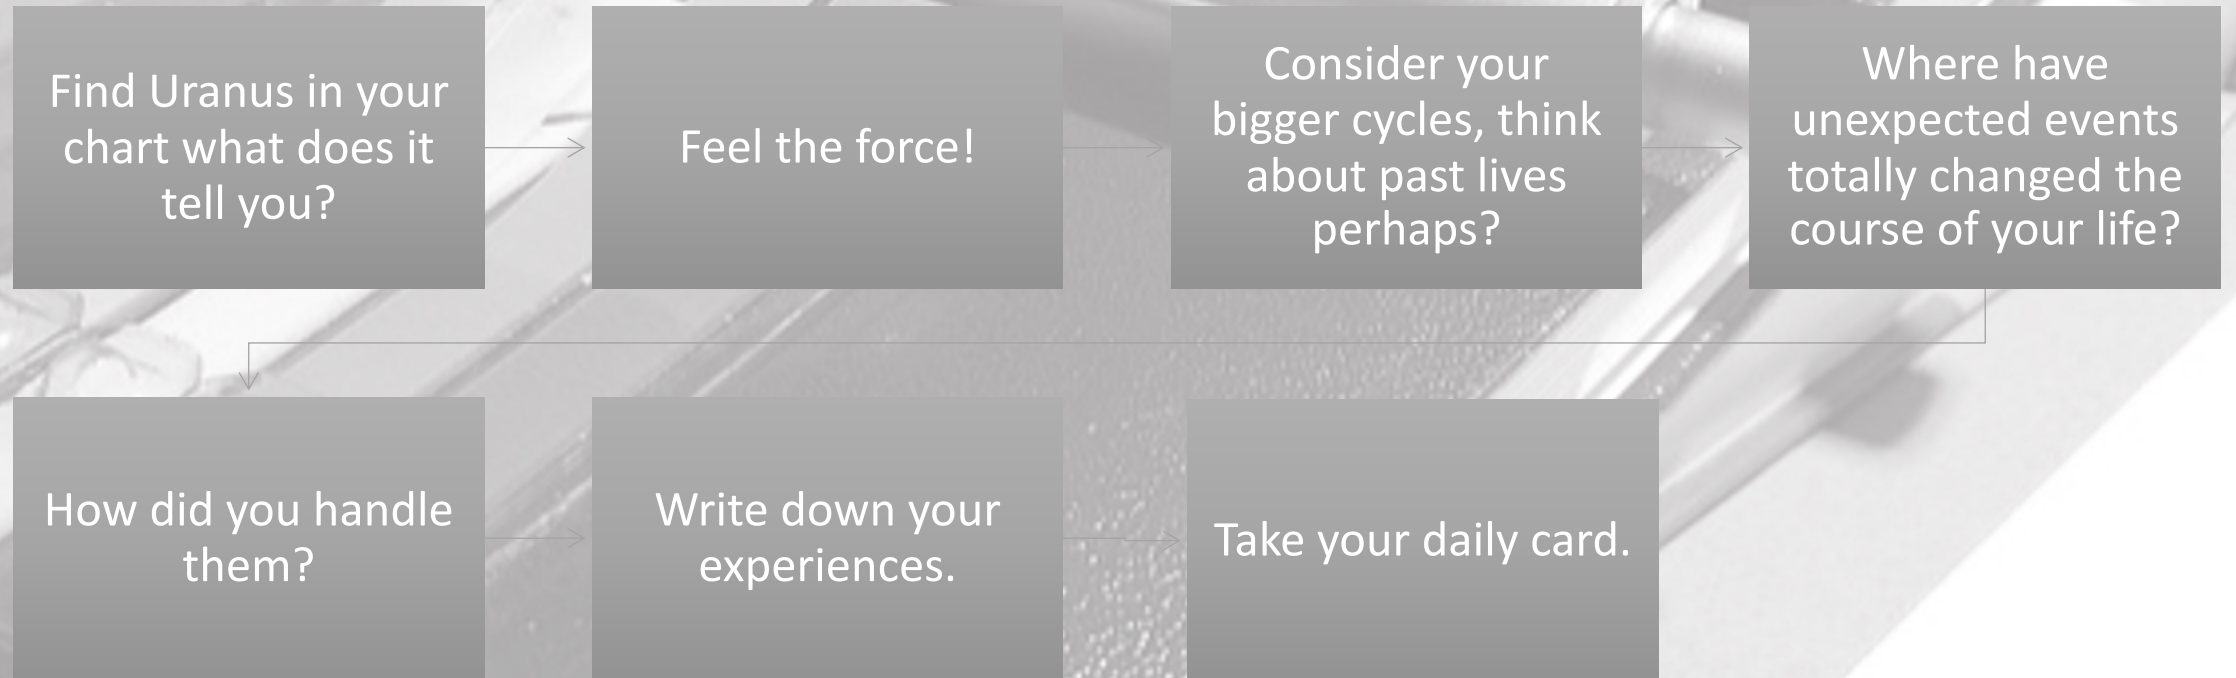

10 Take all from above and apply it to helping others.

Tarot Cards

- The four twos are the Tarot cards associated here; balance brought about by two energies working together rather than one trying to do it all on its own.
- Two of Wands – Lord of Dominion, make your choices, be true to what your own sovereignty to have the life you want.
- Two of Cups – Lord of Love, self-love expressed through harmonious polarisation.
- Two of Swords – Lord of Peace, the mind is at peace, taking the higher ground from a place of wisdom.
- Two of Disks – Lord of Change, things change and they should as inertia is prevented by constant change. What needs to be changed?

Homework

Next meet is November 20th at 10:00 Consolidation on Facebook
