

Tree of Life Month 7

Order and Timing

Order and Timing

You Are Here

- Home to **Jupiter**, this is where you meet the law that states that everything has it's time and place. It also plays host to Lady Luck and her ability to produce just the right thing at the right time. A palace of gifts awaits you ...

How It Shows Up In Your Life

You're running late, you can't see how you can make it and yet you do. Always? Probably not, but how often do you stop to consider if running late is just the Universe's way of making sure everyone, everything, is where it's supposed to be? A big ask.

Bringing it back to your day to day routines, the stuff that holds you up and makes you hurry; is it possible to have more of a say? You manipulate time without even knowing it, or more to the point your perception of time.

If you have a day to do a task you will take the day, if things change and you have an hour, guess what, you often do it in just that one hour.

- This is also an area of luck, of gifts and opportunities and if you will take them. During your stay here look for that lucky break, a foothold on your climb up the mountain, a foothold you hadn't noticed until now.

Abundance

When you imagine your next big project, see it in your mind's eye, see the way it will look, what colours you might use, who will use it or read it, what impact it may have and how it will come into being and beyond, that is the power of Order and Timing. You're forming your kingdom, building those images on a higher plane ready for Vulkhan and the edit process, balanced by Odetta, coloured in by Glorianna, given words by Cassatron and passed to Hironiel for your subconscious to deliver it to Daniel for manifestation.

You're now dealing in the realms of the soul, hold in mind how this helps others, not just you helping yourself. What can you do to make a change in the world and use the gifts given to you to gift what others need in their life? This doesn't have to be a grand plan, can be if you want it to be, it can be family, friends, whoever; just don't fall into the vice of this phase and turn towards gluttony, hypocrisy or tyranny. As if!

But think about those who have? Where has money, power, resources all corrupted individuals and even nations?

Transits as Signposts

- Your next move is important, you know the nature of cause and effect, you know that action is better than sitting still doing nothing but how do you know when, with whom perhaps?
- Your astrological chart can help, help greatly. If you know which sign rules your career, that's number 10 on the wheel, then you can find out when helpful planet are moving through or contacting you existing planets. This is called transits. .

Jupiter

- The planetary ruler is Jupiter, shown here with a purple background that denotes his place as King amongst the planets! It's a planet of richness, of abundance and of luck itself.
- Easy to remember as he looks like a big number 4, a lucky number for many.
- He's in your own sign once every twelve years, when he offers you a Jupiter return. This is commonly seen as a particularly fortunate time. So aged 12, 24, 36 and so on.
- He's the planet of abundance but also of gluttony, overdoing things and sometimes assuming the role of ruler when it may not have been offered?
- He governs Sagittarius and Pisces, although Neptune is more likely seen as the ruler of Pisces in modern astrology.
- His tarot card is the Wheel of Fortune, says it all!

Expansion of Time

Exercise

This exercise isn't designed to help you fit more into your day, it's to offer you more time for the things you love.

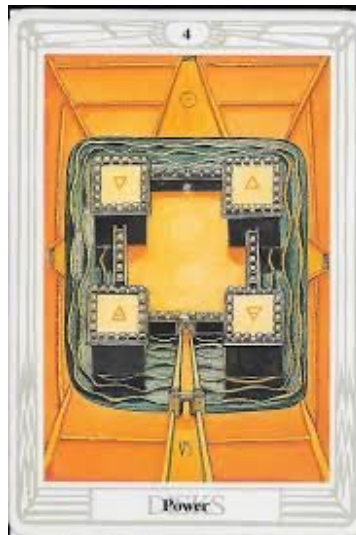

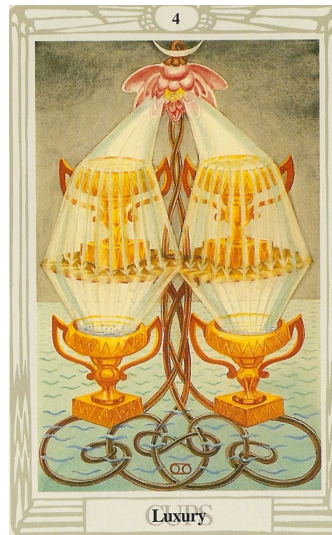

Every morning for the next week repeat this mantra 20 times: eyes closed, feel every word.

“I have all the time I need for the things I love”

Now cut out what you don't love, take away the things that drain you and pass along tasks that others could be doing for themselves. Take 30 minutes to read your book, take 40, then 50 and on it goes. Time is yours to control, not in control of you.

Tarot Cards

- The Number four in Tarot is often seen as a resting point, a place where you are rewarded for a job well done!
- Four of Wands – Lord of Completion, the job may be done and well done, but what's next?
- Four of Cups – Lord of Luxury, count your blessings, appreciate those who love you and love them right back!
- Four of Swords – Lord of Truce, call a halt, take the higher ground and after what may be some harsh words find a way through.
- Four of Disks – Lord of Power, when you have achieved success share it, be that financially or with your advice. Keep it moving.

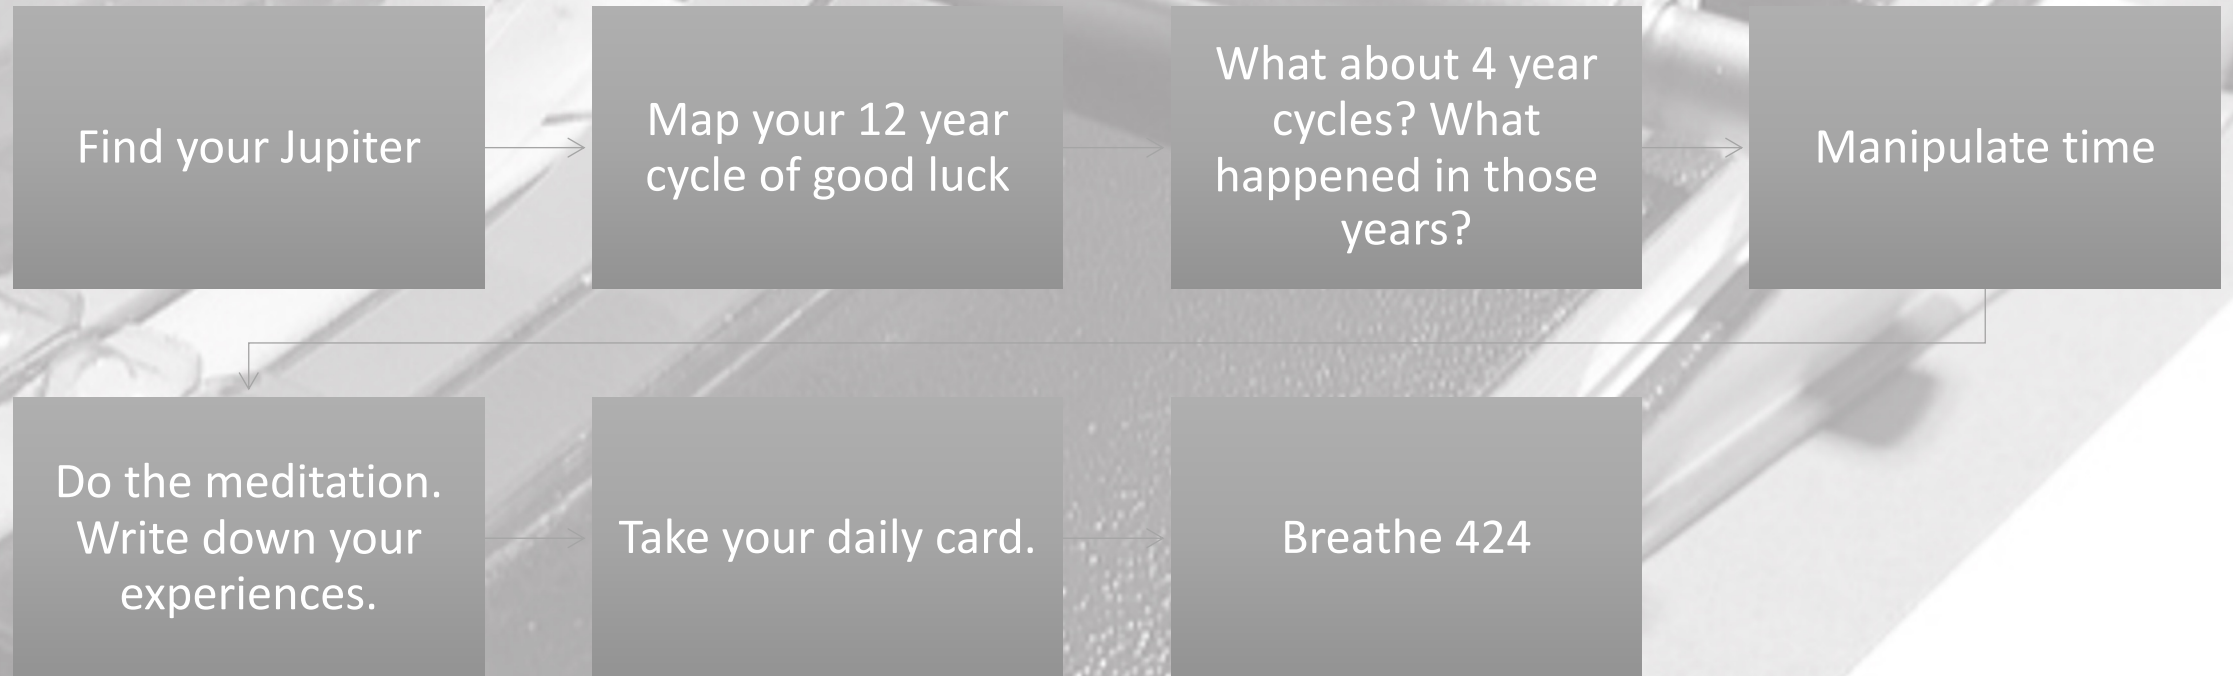

Meditation: Meet Jupiter or Your Soul Guide?

- Get ready to meditate or just contemplate if that's your way
- This meditation uses the same one you've used to meet your guides previously.
- But this time you're setting the intention to meet your Soul Guide or Jupiter if you want.
- Take this to another level by setting your room up with the clear intention of talking to higher forces
- Burn incense, light candles and do your full protection ritual but make it your own. Colours, flowers, incense, whatever you feel.
- When its done write it out, what did your guide share? Why did you chose the flowers, incense and colours you did?
- Order and timing are everything. Make an appointment, stick to it.

Homework

Next Facebook meeting is 18th September 10:00 AM
